MACHINING & GRINDING COOLANTS

- Synthetic & Semi-Synthetic
- Straight Oils & Soluble Oils
- Premium Wire EDM Fluids

DRAWING & STAMPING LUBRICANTS

- Synthetic & Semi-Synthetic
- Straight Oils & Soluble Oils
- Evaporative/Vanishing Oils

VIBRATORY & BURNISHING FLUIDS

- Brightening & Burnishing
- Deburring & Tumbling
- Cleaning & Descaling

SPRAY & IMMERSION CLEANERS

- Power Spray & Steam
- Immersion & Ultrasonic
- Rust & Scale Removal

RUST & CORROSION PREVENTATIVES

- Water-Based Synthetics
- Straight & Soluble Oils
- Evaporative Solvents

METALWORKING FLUIDS

- Swiss Screw Machine Oils
- Premium Vegetable Oils
- All-Purpose Cutting Fluids

SPECIALTY METALWORKING

- Honing & Lapping Oils
- Tapping Compounds
- Premium Quench Oil

PREMIUM LUBRICATION

- Spindle Oils
- Hydraulic Fluids
- Way Lubricants
- EP Gear Oils

SPECIALTY PRODUCTS

- Concrete Form Release
- Bio-Based Hydraulic Fluids
- Min. Quantity Lubrication

INDUSTRIAL CLEANERS

- Machine Cleaners
- Hard Surface Cleaners

Got Funk?

Funky odors ruin everything and most are caused by bacteria. These funky little organisms feed on tramp oil and other contaminants. Bacteria can - and will - funk up your coolant baths. The best and safest way to restore your system is to **GET THE FUNK OUT! (GTFO!)**

**1-GALLON
SAMPLES
AVAILABLE!**

GET THE FUNK OUT!

- Non-Toxic
- Non-Corrosive
- Non-Silicated
- Biodegradable

**COOLANT
SAMPLES ARE
AVAILABLE FOR
IMMEDIATE
SHIPMENT!**

GTFO! is a machine and system cleaner that effectively loosens and removes soils, flushes chips and swarf, and most importantly, **GETS THE FUNK OUT!**

The powerful combination of biocides and emulsifiers leaves your system clean n' mean; clogged coolant lines are flushed clear so the pumps don't have to work as hard and fluid pressures increase at the tool. The air is also clean because bacteria and funky odors are history.

Following a thorough de-funking of the system, be sure to charge it up with a premium product from ICC ZURNOIL. We manufacture straight and soluble oils, full synthetic coolants, and technologically advanced semi-synthetic metalworking fluids. Our coolants run clean. No rust. No funk. No problem.
