CVD Nano Crystalline Routers

- Specifically designed for the toughest milling challenges, such as graphite and carbon panels, composites and honeycomb
- Provides excellent material finish and breakage resistance
- Available in fractional and metric sizes
- High performance A-Gr-SiV submicron grain carbide

Fine Pitched Nicked

Series 824

Herringbone Composite Surface Finisher

Series 825

Composite Rougher Semi-Finisher

Series 826

Composite Finisher

Series 827

PowerRD

- Real CVD Diamond Coating

PowerRD

Color: variable gray to black

Vickers Hardness: approximately 8,000 Vickers

Non-ferrous, metals, aluminum, graphite, green ceramics, and composites

FINE PITCH NICKED NANO ROUTERS

- 6-16 Flutes • Diamond Coated • Fine Pitched Nicked

Standard, Series 824

- High Performance A-Gr-Siv submicron grain carbide
- Excellent performance on carbon graphite and carbon fiber panels

CVD Real Diamond Coated

HERRINGBONE COMPOSITE SURFACE FINISHER

- 4 Flutes • Diamond Coated • Fine Pitched Nicked

Standard, Series 825

1/8" Dia x 3/8" LOC – Plain End
Edp 824-004-7
\$225.00 for the 1st one
\$112.50 for the 2nd one
\$337.50 for the two routers – **only \$168.75 each**

OD	LOC	SHK	OAL	PowerRD
D1	L1	D2	L2
